So soon as Mr. Randall remembered that President Cleveland was a firm believer in the oneterm principle he renominated him her and Henery, Capt. Johnson broke for 1888. This recalls the thrilling scene in 'Box and Cox.' 'Hark ye, sir, can you fight?" No! Then come on!

A CERTIFICATE of incorporation has been issued by the Secretary of State to the Lincon Monument Association, being a reorganized of the National Lincoln Monument Association organized in 1865. The object of the Association is to perserve and repair the monument erected to the memory of Abraham Lincon in Oak Ridge Cemetery, in Springfield, Ill.

THE loose state of law and opinion in New York as to what constitutes marriages serves doubtless as a constant temptation to adventuresses to bring suits of a questionable character against persons from whom they may hope to extort large sums of money. When a hotel register can make a couple man and wife in law, whether they be so in fact or not or the mere introduction of a woman as one's wife may be made to serve the same purpose, it looks as if New York had about reached a position in which it can claim little more credit for respect for the marriage tie than Utah.

THERE goes a young fellow walking with a girl. You may perhaps suppose that she has his arm, so to speak; Nothing of the kind. He has got the arm of that simpering, giggling young goose clutched half-way between the shoulder and elbow, and presents the apperance of having just taken her in custody and of being in the act of "running her in," so to speak to borrow a slang phrase of the facetious peeler. One would suppose the young woman was certainly in the hands of the law and on her winding way to the stationhouse on a charge of disturbing the peace There is, however, no cause for despondency, the "kid" is only out for an airing with "his girl." to borrow once more from the American language, "as she is spoke,' by too gany natives,

Murder Trial. GREENVILLE. TENN., June 19.

The fourth day of the Johnson trial was devoid of interest except the intro duction of testimony by the defense to prove that defendant was suffering from emotional or temporary insanity. The examination of Congressmen Pett borne took up nearly the entire day, and was very favorable to the defense. He described a meeting between himself and defendant a day or two before the killing of Maj. Henry. Defendant was widely excited at the time, and would talk of nothing else but his trou bles, the seduction of his wife by Henry and her subsequent death. Witness stated that defendant had asked him to produce letters from his wife, sense ed to be in the possession of Henery and the production of one of these was the cause of defendant's terrible excit ement. When he came to part of the letter pertaining to a meeting between completely down and feebly exclamed 'My God; is it possible! Is it possible! It seemed that from this the avenging his wife,s disgrace and death. Wituess had several subsequent conversa. Wilson, attorney at Greenville, restified that defendant came into his office on the day before the killing in a terrible state of excitement, saving: " That d -d old hellion claims that my wife seduced him, and he is an innocent victim," meaning Henery.
